

H F Jensen A/S company profile

H F Jensen A/S has developed and manufactured sensors for more than 40 years and is ISO 9001 certified by Bureau Veritas for development, production and sales of transducers and transmitters.

H F Jensen A/S is certified by Achilles for delivery to the Oil and Gas industry.

Our development and production are based in Denmark.

Our product range includes transducers for displacement, pressure, differential pressure, level and the associated signal conditioners.

Most of our production is customer specific and some of it is OEM.

APPLICATIONS:

- Marine diesel engines with high temperature and vibration requirements
- Food, chemical and pharmaceutical industries with high sanitary standards
- Maintenance free subsea installations with very high life expectancy
- Nuclear power plants
- Machinery with extreme precision requirements
- Water level measurement with high precision
- Hydraulic and pneumatic cylinders

The displacement transducers for the large marine engines are the top selling products for us at the moment.

We are looking forward to hear from you and hope to serve you in the future.
