

# MAGNESCALE

digital gauge

## Series DT, Series U

Key-Features:

- Measurement ranges: 12, 32 mm (DT Series)
- Measurement ranges: 12, 30, 60 mm (U Series)
- Resolution up to 1  $\mu\text{m}$
- Linearity up to 2  $\mu\text{m}$
- Output signal A/B, TTL-Linedriver, EIA-422 with MT14
- USB (2.0 FS) interface with MT30 - free evaluation software for download
- Protection class up to IP64
- Spring loaded and pneumatic versions
- Resistant against water and oil
- Life cycle up to 30 million strokes

Mounting method using holder

Mounting holder dimensions and tolerance

## INTERPOLATOR MT14

Using the interpolator unit MT14 the digital gauges of the series DT12, DT32 and DT512 can directly be connected to PLCs etc.

|                         |                        | MT14   |
|-------------------------|------------------------|--|
| Resolution              | [ $\mu\text{m}$ ]      | MT14-01: 1 / MT14-05: 5 / MT14-10: 10                            |
| Displacement speed max. | [m/min]                | 100  |
| Output signal           |                        | Voltage-differential line driver output (compliant with EIA-422) |
| Working temperature     | [ $^{\circ}\text{C}$ ] | 0...50   |
| Storage temperature     | [ $^{\circ}\text{C}$ ] | -10...60   |
| Supply                  | [VDC]                  | 5, $\pm 5\%$   |
| Consumption             | [W]                    | 1.2 (when output load of 120 $\Omega$ is connected)              |
| Weight                  | [g]                    | approx. 90   |

| Description | Cable color |
|-------------|-------------|
| + 5 V       | red         |
| 0 V         | white       |
| 0 V         | brown       |
| 0 V         | black       |
| A           | yellow      |
| A -         | blue        |
| B           | grey        |
| B -         | orange      |
| alarm       | purple      |
| alarm -     | green       |
| FG          | shield      |

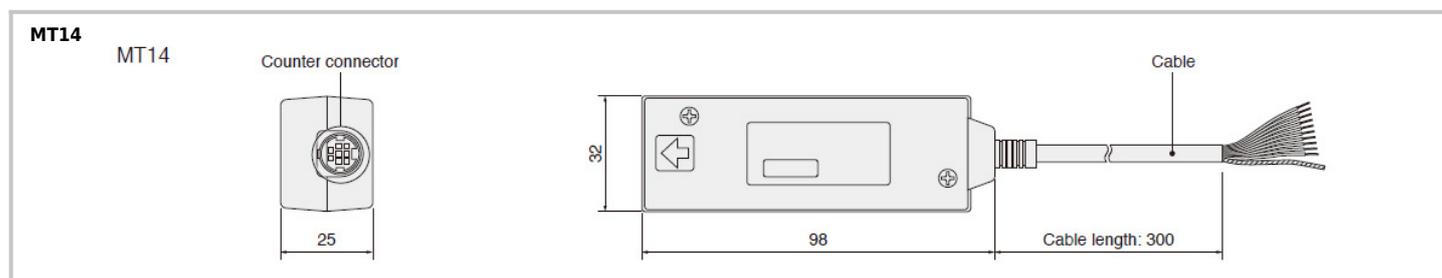

0 V and the shield (FG) are connected with a capacitor.

### Phase difference for phase A/B output in depending on the displacement speed v [m/min]

| MT14-01               | MT14-05               | MT14-10                 | Phase difference [ $\mu\text{s}$ ] |
|-----------------------|-----------------------|-------------------------|------------------------------------|
| $0 < v \leq 2.5$      | $0 < v \leq 12.5$     | $0 < v \leq 25$         | 20                                 |
| $2.5 < v \leq 6.25$   | $12.5 < v \leq 31.25$ | $25 < v \leq 62.5$      | 8                                  |
| $6.25 < v \leq 12$    | $31.25 < v \leq 60$   | $62.5 < v \leq (100)^*$ | 5                                  |
| $12 < v \leq 24$      | $60 < v \leq (100)^*$ |                         | 2.5                                |
| $24 < v \leq 60$      |                       |                         | 1                                  |
| $60 < v \leq (100)^*$ |                       |                         | 0.5                                |

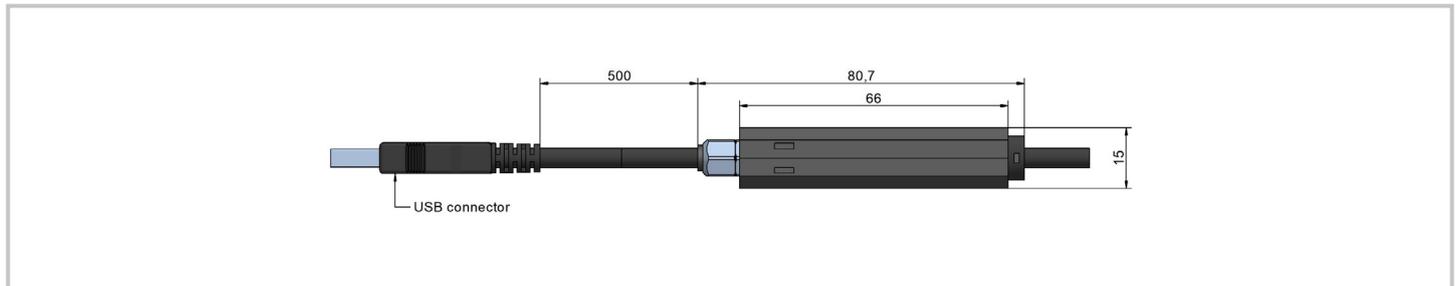

\* An alarm is output at a traveling velocity of 100 to 115 m/min. The sampling frequency of the output signal is 120  $\mu\text{s}$ .

## INTERPOLATOR MT30

Using the interpolator unit MT30 the digital gauges DT12, DT32 and DT512 can be connected to the USB port of a PC.

| Model                     |                   | MT30-01  | MT30-05    |
|---------------------------|-------------------|--|------------|
| Resolution                | [ $\mu\text{m}$ ] | 1  | 5          |
| Connectable digital gauge |                   | DT512  | DT12, DT32 |
| Accuracy (20°C)           | [ $\mu\text{m}$ ] | 6  | 10         |
| Protection class          |                   | IP40   |            |
| Vibration resistance      | $\text{m/s}^2$    | 100 (20Hz to 2kHz)   |            |
| Impact resistance         | $\text{m/s}^2$    | 1000 (11 ms)   |            |
| Communication interface   |                   | USB2.0FS   |            |
| Power supply              | [VDC]             | 5 $\pm$ 5%   |            |
| Power consumption         | [mA]              | 120 max.   |            |
| Operating temperature     | [°C]              | 0...50   |            |
| Storage temperature       | [°C]              | -10...60 (90% RH or less)  |            |
| Power supply              | [VDC]             | 5, $\pm$ 5 %   |            |
| Mass                      | [g]               | approx. 50   |            |
| Cable length              | [m]               | Gauge <=> Interpolator: 0,3, Interpolator <=> USB: 0,5                                     |            |
| System requirement        |                   | CPU: Intel Core i3 or higher; RAM: 1 GB or higher; OS: Windows7, Windows10 (32 bit/64 bit) |            |

## USB SOFTWARE

With the free basic software tool the measuring values can be read out and saved in an excel or csv file.

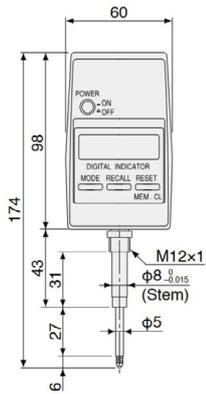

- Up to 8 gauges can be connected
- Easy to operate and setup
- Comparator function
- Calibration (Reset) function
- Scaling function
- Available in various languages
- Compatible with Windows 7/8/10 (XP possible)

## U12B

## U30B

## U60B

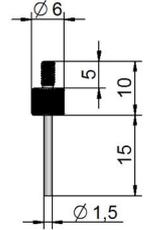

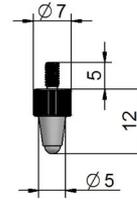

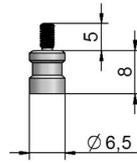

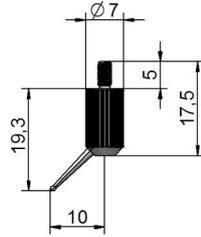

## Accessory: Stand DZ521

## ACCESSORIES DT SERIES

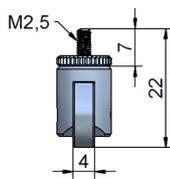

### Feeler Set DZ5100:

1. Off-center contact point:  $\varnothing 1,0$  mm steel ball
2. Flat carbide contact point  $\varnothing 6,5$  mm
3. Plastic ball contact point  $\varnothing 3,0$  mm, nylon ball
4. Pin contact point  $\varnothing 1,5$  mm

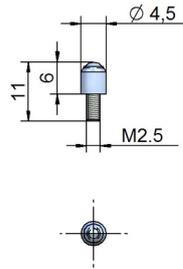

### Roller DZ100:

Tolerance  $< 3 \mu\text{m}/\text{turn}$

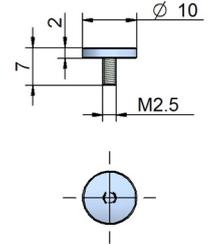

### Tastkopf-01 \*

Tastkopf-01: steel (standard)  
Tastkopf-01-HM: cemented carbide  
Tastkopf-01-R: ruby  
Tastkopf-01-K: ceramics

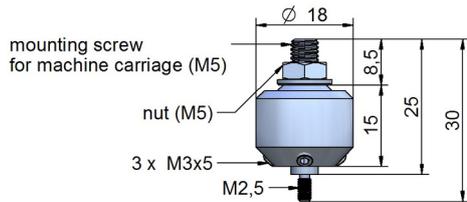

### Tastkopf-02

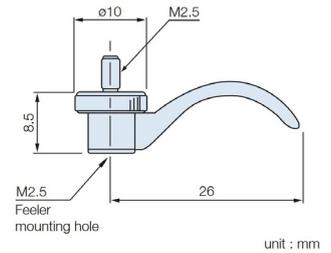

Tastkopf-02: steel  
Tastkopf-02-HM: cemented carbide

### Coupling DZ191:

### Lift lever DZ161

### \* Material of the feeler balls:

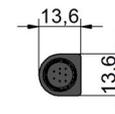

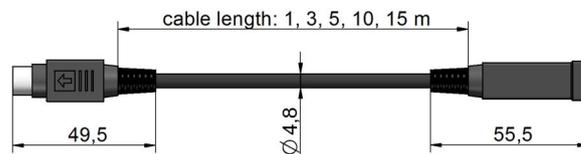

steel: for standard applications

ruby: much harder and wear resistant than steel, non-conductive, for all applications except for measuring on aluminium and cast iron

ceramics: comparable to ruby, best choice for measuring on aluminium and cast iron

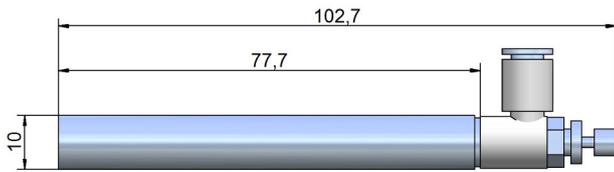

**Extension cable CK-T (high flex):** CK-T12 (1 m), CK-T13 (3 m), CK-T14 (5 m), CK-T15 (10 m), CK-T16 (15 m)

**Extension cable CE08:** CE08-01 (1 m), CE08-03 (3 m), CE08-05 (5 m), CE08-10 (10 m), CE08-15 (15 m)

## ACCESSORIES DT SERIES

### Airlifter DZ176

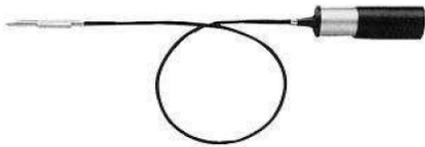

#### Mode of operation:

- Use an air tube with an outer diameter of 4mm.
- The supply air should be cleaned by using a filter.
- Without the airlifter a spring inside of the sensor pushes the rod outwards.
- With the airlifter installed the rod will be pulled inside by a stronger spring inside of the airlifter.
- When air is supplied the rod will be pushed out again and the measurement can begin.
- The rod retraction speed can be adjusted by the speed controller mounted on the DZ176.

|                              | LT10A                                   |                               | LT11A                        |                               |
|------------------------------|---|-------------------------------|------------------------------|-------------------------------|
| Suitable gauges              | DT12, DT32                              |                               | DT512                        |                               |
| Standard (without interface) | LT10A-105 (1 channel model)             | LT10A-205 (2 channel model)   | LT11A-101 (1 channel model)  | LT11A-201 (2 channel model)   |
| With BCD interface           | LT10A-105B (1 channel model)            | LT10A-205B (2 channel model)  | LT11A-101B (1 channel model) | LT11A-201B (2 channel model)  |
| With RS232 interface         | LT10A-105C (1 channel model)            | LT10A-205C (2 channel model)  | LT11A-101C (1 channel model) | LT11A-201C (2 channel model)  |
| LCD Display                  | 5 digits                                |                               | 5 digits                     |                               |
| Resolution                   | 5/ 10 $\mu$ m, selectable               |                               | 1/ 5/ 10 $\mu$ m, selectable |                               |
| ADD/ SUB-Function            | -                                       | model LT10-2xx: A+B, A-B, B-A | -                            | model LT11-2xx: A+B, A-B, B-A |
| Working temperature          | 0...+40 °C                              |                               | 0...+40 °C                   |                               |
| Storage temperature          | -10...+50°C                             |                               | -10...+50°C                  |                               |
| Weight                       | 220 g to 270 g (depending on the model) |                               |                              |                               |
| Consumption                  | 1.8 W to 4 W (depending on the model)   |                               |                              |                               |
| Supply                       | 9.0 to 26,4 VDC                         |                               |                              |                               |

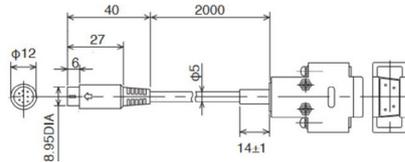

### Key Features

- Resolution : selectable
- Suitable for panel mounting
- Direct interfacing from display unit to PLC or computer
- Current values, maximum, minimum, peak-to-peak values and GO/NO GO evaluation included as standard functions.
- ADD/SUB function (2-channel model)
- Full lineup for various applications

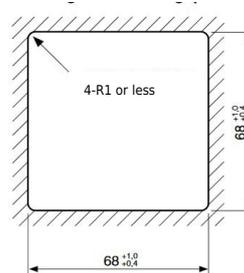

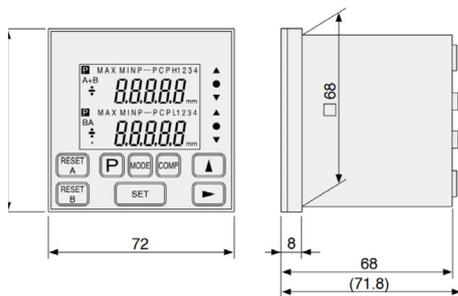

### Connection cable DZ252 for LT Display with RS232 interface for connection to a PC, RS232 card, etc.

DZ252 cable for RS232C (for LT and U series), round 8-pin male <-> D-sub 9-pin female

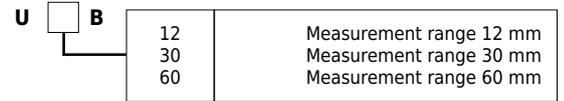

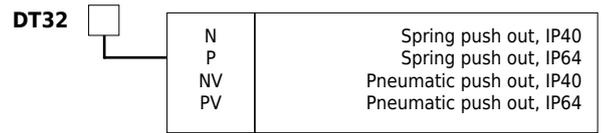

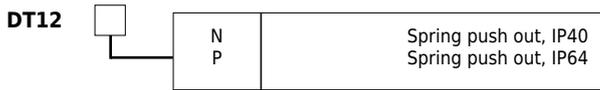

### LT10A, LT11A

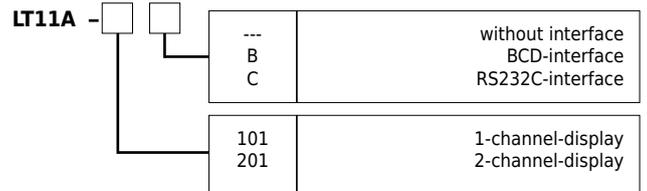

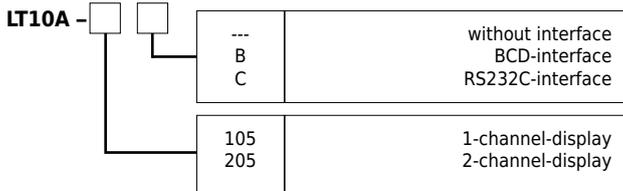

### Panel cut-out
